

The Pace PAC0839 is a compact dual-head emergency light equipped with PIR motion sensor. The light has two 7W fully adjustable LED lamp heads, with test switch and an LED status indicator. The PIR sensor has low-light detection, a detection angle of 130°, a detection range of 30 feet, and automatically turns off after 16 minutes when no motion is detected. The installed 3.6V, 1800 mAh Ni-CD rechargeable battery provides 90 minutes of run time after loss of AC power. UL 924 listed for wet locations.

Features

- Compact Thermoplastic Design
- Maintenance-free nickel-cadmium battery
- Universal input voltage 100-300V
- Gasketed fixture for wet locations
- Suitable for outdoor use
- Temp rating 10°C-40°C (Damp & Wet Locations)
- UL 924 Listed
- CUL Listed

Lumen Output

- Total Lumens: 246
